

ERASMUS +

IT FOR WORK IN

EUROPE

Created by the students of Örfi Çetinkaya
Mesleki ve Teknik Anadolu Lisesi

- We interviewed the world-famous kids brand – a Hasbro Joint Venture Company – Playdoh company in Arnavutköy Istanbul

- We talked to Jahana GURBANDURDYEVA, the Project Manager of Hasbro Joint Venture

- This factory is newly opened in Istanbul. Our observation was pretty good
- They are just dealing with production and distribution of the products in this place

- They manufacture according to the amount of monthly and weekly orders taken
- They give importance to the education, training and internship opportunities of the young people

- Unfortunately, we didn't take the photos because there were a lot of colorful chemicals inside 😊 I hope you like it 😊 😊
